	Years
Small light oil engines	8
Light engines of bigger size	12
Crude oil heavy engines	20
Light high speed steam engines	15
Heavy high speed steam-engines	20
Heavy slow speed steam-engines	30
Light reciprocating pumps	15
Heavy reciprocating pumps	30
Small high speed centrifugal pumps	15
Large high speed centrifugal pumps	20
Slow speed centrifugal pumps	25
Lancashire or cornish boilers	30
Small tubular boilers	15
Steel filter shells	20
Tube-wells	10
Electric motors	20
Mechanical filter parts	15
Sewage aeration machinery	15

The average life of a plant shall be calculated in the following manner —

Example —Suppose the Commissioners have the plant mentioned below:—

Plant	Cost	Life		
	Rs	Yrs		
(a) Heavy oil engines	6,210	× 20	=	1,24,200
(b) Centrifugal pumps	3,417	× 25	=	85,425
(c) Filter parts (including chlorinator)	10,860	× 15	=	1,62,900
Total	20,487			3,72,525

Therefore the average life of the whole plant would be $\frac{3,72,525}{20,487} = 18$ years

197 The amount to be deposited in the said fund shall be included in the estimate of the recurring cost for upkeep of the works

Table showing the annual sum which accumulated at compound interest will amount to 1 at the end of a period (vide Archer's Table)

Average life of the plant	Fractional annual contribution at 2½ per cent	Average life of the plant	Fractional annual contribution at 2½ per cent
8	1155	20	0401
9	1015	21	0378
10	0903	22	0356
11	0811	23	0337

18	0457	30	0237
19	0428		

Example —If the value of the plant be, say, Rs 2,000 and the assumed life be 20 years, the annual contribution to the Depreciation Fund (at 2½ per cent rate of improvement) should be 0401 × 2,000 rupees

DARJEELING, THE 25TH OCTOBER 1934

RESOLUTION—No 1720T R

Read—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1933-34

During the year under report, although the weather conditions were not everywhere favourable, the outturn of crops was, apart from local floods, satisfactory except in the districts of Malda, Burdwan Birbhum and Hooghly There were floods in the Damodar, Ajoy and Bhagirathi, and breaches in the Chetua embankment in Ghatal and the Rupnarain embankment in the Tamluk subdivision of Midnapore district Parts of the 24-Parganas Bogra Rajshahi and Malda districts were also visited by floods, resulting in the destruction or damage of jute and paddy Crops were also injured in various localities by heavy rainfall, water hyacinth, blight and insect pests Cattle disease appeared in various places A cyclone in Pabna, and a tornado of considerable violence in certain parts of the Rajshahi district, caused damage to standing crops, cattle, houses and property of the people in the affected areas Prompt and adequate measures were taken by

local officers and others to relieve distress Agricultural loans and gratuitous relief were promptly supplied by Government, when required, food and medical help by local bodies and local committees, and seeds at reduced prices by the Agriculture Department With this assistance people in the affected areas were able to tide over their immediate hardships Land improvement and agricultural loans to the extent of Rs 3,72 139 were advanced during the year under report

Owing to the earthquake of January 1934, the town of Darjeeling and the neighbouring villages sustained considerable damage, but the greatest losses were sustained by the more well to do The labouring classes actually benefited by the earthquake, for a great deal of employment was thereby provided for both skilled and unskilled labour

The material condition of the people was no better than in the previous year Though the price of paddy and rice showed some slight rise in the latter part of the year, this did not appreciably improve their condition, in the absence of a rise in the price of jute which is essentially the money crop of the province The poverty of the agricultural population indirectly affected the non agricultural sections of the community also The landless middle classes with fixed incomes were benefited by the cheapness of food and labour though this was offset by reductions of pay and increased insecurity of employment in trades and professions Unemployment among the middle classes continued to be a serious problem

2 The current demand of land revenue was Rs 3 07,91,739, which showed an increase of Rs 2,62,780 over that of the previous year, and collections were 69 42 per cent of the total and 95 80 per cent of the current demand The fact that there were only 1,826 sales as against 31,169 defaults indicates the leniency with which the sale law was administered

3 In comparison with the previous year, the cost of management of Government estates increased by Rs 18,336, the percentage of cost on current demand being 8 36 against 8 33 in the previous year A sum of Rs 94,425 representing 1 42 per cent of the current demand was spent on agricultural and miscellaneous improvements, while a sum of Rs 97,500, or 1½ per cent on collections from Government estates, was made over to the district boards of the province for development of roads and communications in or leading to Government estates

4 Agricultural demonstrations were carried out with success in the districts of Jessore, Chittagong, Noakhali, Jalpaiguri, Bogra, Malda and Darjeeling In Faridpur the fifth batch of five *bhadralok* youths were, on the completion of their training in the Faridpur Agricultural Farm, offered lands, but only one of them accepted the offer In Bakarganj the twenty *bhadralok* youths mentioned in the last year's report formed a house building society to construct houses at char Fasson As they could not complete the houses no lands were settled with any of them during the year In last year's report 1,400 acres of char lands were stated to have been settled in Noakhali with educated *bhadralok* young men under the co-operative and the *bhadralok* schemes Subsequently it was found on enquiry that many of them had sublet their lands in contravention of their agreement and hence their leases were cancelled As a result, only 800 acres of char lands are now settled with *bhadralok* youths in the district In Tippera and Pabna also some lands were settled with *bhadralok* tenants

The number of schools, and of pupils attending them, in Government estates, increased by 11 and 3,156, respectively, during the year under review

5 A solid block of twenty-two villages with an area of 178 square miles is covered by the Bakarganj colonisation scheme now in its twenty-seventh year No further areas were colonised during the year and the remaining area of 7,249 01 acres remains unsettled In the 24-Parganas Sundarbans (colonisation of which was in its nineteenth year) no new area was taken up for reclamation The total sum advanced by Government for reclamation in the 24-Parganas and Bakarganj, Sundarbans and the total income derived from these areas up to the end of the year under report were Rs 29,42,671 and Rs 38,05,246, respectively

6 The general health of the people in the Bakarganj Sundarbans area was good and crops were fair, but low prices have greatly affected them, owing to the heavy debts they have incurred and also owing to their habit of cultivating their fields with hired labour In the 24 Parganas Sundarbans the health of the colonists was good, but there was some damage to crops

7 Taking the province as a whole, relations between landlords and tenants were better than might have been expected In the Arambagh subdivision of the Hooghly district and in parts of Dinajpur and Bogra, sporadic attempts were made to exploit the economic situation by agitation which threatened to develop into a no-tax or no-rent campaign Relations between khas mahal tenants and the Government tahsildari establishment continued to be satisfactory

8 Thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under the Board

By order of the Governor in Council,

CORRIGENDUM

No 7519F —30th October 1934 — The following corrections which have been authorised, are published for general information —

Corrigendum to the Fundamental and Subsidiary Rules, 1st Edition (Reprint)

Page 103—F R 49—Number the existing Audit Instruction as (1) and *insert* the following as (2) —

(2) Presumptive pay for the purposes of Fundamental Rule 49 (*b*) should according to Fundamental Rule 9 (24) be taken to be what the Government servant who is placed in additional charge, would draw as initial pay in the time-scale of the additional post under Fundamental Rule 22, were he formally transferred to it In case however in which the maximum pay of the lower post is less than the pay of the Government servant in his substantive post, the application of Fundamental Rule 22 is not clear and accordingly the Governor-General in Council has decided under Fundamental Rule 8 that in such a case the maximum of the pay of the lower post should be taken as the presumptive pay for the purposes of Fundamental Rule 49 (*b*)

Note —This ruling will apply to provincial and subordinate services and special posts

8 No leave shall be granted beyond the date on which a Government servant must compulsorily retire

Provided that, if a Government servant has applied in writing for earned leave due to him preparatory to retirement and has on account of the exigencies of the public service been denied that leave in whole or in part by the authority empowered to grant it, the said authority may grant to the Government servant the whole or any portion of the earned leave so denied, even though it extends to a date beyond the date on which such Government servant must compulsorily retire

12 A Government servant not in permanent employ appointed without interruption of duty substantively to a permanent post will be credited with the earned leave which would have been admissible if his previous duty had been duty as a Government servant in permanent employ diminished by any earned leave already taken Leave is not an interruption of duty for the purpose of this rule

13 Subject to the provisions of rule 14—

(a) Earned leave is not admissible to a Government servant in permanent employ serving in a vacation department in respect of duty performed in any year in which he avails himself of the full vacation

(b) The earned leave admissible to such a Government servant in respect of any year in which he is prevented from availing himself of the full vacation is such proportion of 30 days earned leave as the number of days of vacation not taken bears to the full vacation

If in any year he is prevented from availing himself of any part of the vacation, earned leave is admissible to him in respect of that year in accordance with the provisions of rule 10

(c) Vacation may be taken in combination with or in continuation of any kind of leave under these rules provided that the total duration of vacation and earned leave taken in conjunction, whether the earned leave is taken in combination with or in continuation of other leave or not, shall not exceed 90 days

Problems

Bisection of angles, and straight lines

Construction of parallels to a given straight line

Theorems

If two sides of a triangle are unequal the greater side has the greater angle opposite to it, and the converse
Any two sides of a triangle are together greater than the third
Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or
(2) a pair of corresponding angles are equal, or
(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the straight lines are parallel, and the converse

Straight lines which are parallel to the same straight line are parallel to one another

Theorems

The sum of the angles of a triangle is equal to two right angles, and the two corollaries thereto

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent

TREATMENT OF MINOR INJURIES

A SCRATCH OR SLIGHT WOUND

Treat every scratch or slight wound *immediately*

Apply the Iodine Solution* over the broken surface *once* and allow to dry

Do not attempt to wash the wound at all

Apply a *Sterilised Dressing* † A bandage can be applied over this dressing if necessary Do not touch the part of the sterilised dressing which is put next to the wound

Blood poisoning or septic infection of a wound is caused by introducing germs into it A sterilised dressing should therefore always be used as it is free from germs

Iodine sterilises the wound and makes any dirt harmless

Hands are never free from germs and should never touch the wound or the part of the dressing to be applied to the wound

A BURN OR SCALD

Cover the injured part with a dry Sterilised Burn Dressing ‡ *Note*—Ointment or oil such as Carron oil should not be used for a First Aid Dressing Carron oil is not sterile Its use may also interfere with any subsequent treatment by a doctor or in the ambulance room

Do not prick a blister except under medical advice it is no part of the First Aid Treatment

AN ACID BURN

Flood the burn with cold water

Sprinkle it (after flooding) with powdered Bicarbonate of Soda

Apply a Sterilised Dressing of suitable size

Iodine should *never* be used for *Burns* or *Dermatitis*

---

* A 2 per cent solution of Iodine in Rectified Spirit B P

† Sterilised Dressing A dressing put up in a separate packet and rendered free from germs by a special process

‡ Sterilised Burn Dressing." A similar dressing as above prepared specially for burns.

EYE INJURIES

Prevention is better than cure

Therefore if your work entails danger to the eyes *wear goggles* Goggles have saved hundreds of eyes *thousands* have been lost for want of them

A Foreign Body in the Eye

Apply two or three eye drops* to the affected eye ball

Cover with an eye shade

Go to a doctor *at once*

Do not try to remove any particle which cannot be brushed away

Note —The treatment recommended should be carried out *immediately* The longer the delay the greater the risk of Blood Poisoning

It is First Aid treatment and is not intended to replace any subsequent treatment which may be necessary by a doctor or in the ambulance room †

---

* Eye Drops—

Cocaine	0 5 per cent
Hyd Perchlor in castor oil	1 in 3 000

Instruction to chemist for making eye drops — Weigh 95 grammes of castor oil into a flask capable of holding twice the quantity Add 0 5 gramme of powdered cocaine Warm on a water bath till dissolved While the solution is still warm (but not hot) add one cubic centimetre of a solution containing 3 3 grammes of mercuric chloride in 100 cubic centimetres of absolute alcohol Mix the solutions by rotating the flask

About half an ounce or 15 c c of this solution should be supplied in a bottle from the cork of which a camel hair brush is pendent in the fluid

First Aid boxes as obtained from the suppliers will nor contain the eye drops as a cocaine preparation can only be dispensed under prescription from a registered medical practitioner It will be necessary, therefore for the factory manager to obtain a prescription from the Civil Surgeon or other registered medical practitioner and to purchase the eye drops separately

Biennial Resolution on the working of Union Boards during the years 1931-32 and 1932-33.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Local Self-Government (Local Boards).

CALCUTTA, THE 24TH NOVEMBER 1934

RESOLUTION—No 5392 L S -G

Minister-in-charge The Hon ble Sir Bijoy Prosad Singh Roy, Kt

During the biennium under review, the number of union boards rose from 4,510 to 4,701 Of the 191 new union boards formed during this period, 124 were in Bakarganj and 52 in Rajshahi, the remainder being distributed among the districts of Mymensingh, Faridpur and Khulna

Franchise.—The number of voters on the union board electoral rolls rose from 2 366,199 in the year 1930-31 to 2,435,342 in 1931-32 and to 2,570,800 in 1932-33 The total number of members of union boards increased from 40 241 in 1930-31 to 41,921 in 1932-33 In most cases the elections were conducted smoothly and they aroused keen interest

It is satisfactory to observe that the recent civil disobedience movement made little impression on these rural self-government institutions On the contrary the union boards would appear to have exerted a distinctly healthy and steadying influence Generally speaking, there was much less political trouble in areas covered by union boards than in tracts where there was none In a few union boards in the Burdwan, Bankura Hooghly and Dinajpur districts, the elections were interfered with by anti-Government propaganda and recourse had to be taken to section 6(4) of the Village Self Government Act Even in these areas however, the popularity of the union boards was amply evidenced by the large number of representations for appointment as members of union boards made to the District Officers and Commissioners throughout the period of the civil disobedience movement

Financial statistics —The total income of union boards excluding the opening balance rose from Rs 82,10,000 in 1930-31 to Rs 86,51,000 in 1931-32 and to Rs 88,25,000 in 1932-33 Of this latter amount Rs 66 46 000 was realised on account of union rates, Rs 2,36 000 as rents of chaukidari chakran lands Rs 1,86,000 from pounds and ferries and Rs 1 96,000 and Rs 2,80,000 respectively as grants from district boards under sections 33 and 45 of the Village Self-Government Act During the year 1932-33 the total income derived from the union rate levied under section 37(*b*) of the Act increased by Rs 99,000, while receipts under the chaukidari rate increased by Rs 4 86 lakhs The increase in the receipts under both these heads in the face of continued economic strain affords striking evidence of the popularity of these village self government institutions as well as of the continued growth of a spirit of practical self-help among the rural population

The total expenditure of union boards rose from Rs 85,18,000 in 1930-31 to Rs 87,53,000 in 1931-32 and to Rs 88,62,000 in 1932-33 of which Rs 49,74,000 *i e*, more than half was spent on the chaukidars Of the expenditure incurred in carrying out the miscellaneous purposes of the Act during the year 1932-33 about Rs 6,11,000 were spent on roads (out of which original works represented about Rs 2,21,000), Rs 5,50,000 on water-supply, Rs 1,32,000 on drainage and conservancy, Rs 3,41,000 on schools and Rs 1,26,000 on dispensaries The most notable decrease in expenditure on works of public utility during 1932-33 was Rs 83,000 on water-supply

Individual activities of Union Boards.—As observed in the resolution for 1930-31, this review of the individual activities of union boards is not comprehensive, depending as it does on the divisional reports, some of which give more details of the activities of particular union boards than others. Besides those mentioned in this paragraph, therefore, there may be other union boards equally deserving which have not been mentioned in the divisional reports. The Lillooah union board spent Rs 1,116 in 1931-32 for the construction of a new road and made public street lighting arrangements with electricity at an annual cost of Rs 600 with effect from April 1931. The Domjur and Lillooah union boards (in Howrah district) collected Rs 1,261 and Rs 1,872 respectively in 1932-33 as subscriptions from the local public for metalling four roads. The Benapur, Basudebpur, Harishpur and Chandipur union boards (all in the Howrah district) spent considerable sums on drainage, the Benapur union board alone spending Rs 1,412 in 1932-33 for the construction of the Birkul sluice. During the period under review the union boards of the Sadar subdivision of Howrah sank 60 and those of the Uluberia subdivision sank 35 tube wells with the help of contributions from the rural water-supply grant placed by Government at the disposal of the Commissioner. The Sashaty union board (Howrah) exacavated in 1932-33 a tank at a cost of Rs 400 and paid for it entirely out of its own funds. Some union boards in the Howrah district sank tube-wells entirely out of their own funds in the year 1931-32 and of these Udaynarainpur is reported to have sunk 6 tube-wells at a cost of Rs 1,345. A number of union boards in the Burdwan district, notably Baghar, Narugram, Simulia, Pila, Bogpur and Kaichar, spent about Rs 1,000 each on water-supply in 1932-33.

The two Biss type schools established by the Baikunthapur union board and another by the Atghoria board in the Burdwan district, worked well. The free lower primary schools at Raipur and Chhatna in the district of Bankura were maintained entirely by the union boards, while the Ajodhya union board (Bankura) maintained a free primary and music school, and the Dwarika (Bankura) union board maintained a free primary school for boys. The Krishnadevpur union board (Burdwan) continued to maintain a free primary school on a voluntary basis. In the Birbhum district 3 primary schools in the Sadar circle, 4 in the Dubrajpur and 5 in the Mollarpur circles were maintained by union boards, while the Ghurisa union board maintained a girls' muktab, the Sainthia, Sultanpur, Chinpai and Hetampur union boards maintained girls' schools and the Sultanpur, Khoyrasole and Gohaliara union boards maintained night schools. In 1931-32 new dispensaries were started by the Bagnapara (Burdwan), Pakhanna (Bankura), Begampur (Hooghly), Maju (Howrah), Raninagar, Panchgram, Bardhanpur and Manikchak union boards (in Murshidabad district). Most of them received the Government subsidy of Rs 250 or Rs 500 a year according as the dispensary was a village or thana dispensary. The union boards at Krishnadevpur and Kandra (both in the Burdwan district) constructed buildings for such dispensaries. The Saltora union board (Bankura) started a leper clinic and spent Rs 1,596 on dispensaries during the year 1932-33. In 1931-32 the Gupti union board (Tippera) and in 1932-33 the Hajiganj (Tippera) and Ramchandrapur (Tippera) union boards spent more than Rs 2,000 each on works of public utility while the Laksam union board in 1931-32 and the Hajiganj union board in 1932-33 (both in Tippera) realised under section 37(*b*) Rs 1,115 and Rs 1,190 respectively, for expenditure on such works. In the Noakhali district laudable arrangements were made in 1932-33 for conservancy, supply of filtered water and street lighting by the Banchhanagar union board. The Basikpur union board also in this district constructed a good motorable road, about two miles long, mainly with the help of local contributions. During 1932-33 several union boards in the district of Bogra made arrangements for conservancy and street lighting, and the Domar and Nilphamari union boards in Rangpur inaugurated street lighting in their respective towns. The Nilphamari and Saidpur union boards in Rangpur and the Ishurdi union board in Pabna continued to maintain systems of conservancy.

While appreciating the useful work done by these boards the Minister regrets to note that there were several instances of laxity in realising union rates resulting in delayed payments to chaukidars and dafadars, defalcations and irregular expenditure from union funds and inequitable imposition of union rates. He hopes that with the growth of administrative experience the union boards will avoid such irregularities in future.

Working of Union Benches and Courts.—The reports from the districts show that union benches are gradually getting more popular Their constitution is also being viewed with greater appreciation by the public Substantial relief is reported to have been afforded to Magistrates by these benches in most of the districts The total number of benches working in 1932-33 was 1 177 against 987 in 1931-32 and 888 in 1930-31 The number of cases dealt with by these benches in 1932-33 was 68,600, showing an increase of 8,321 over that of 1931-32 The union courts are reported generally to be gaining in popularity and affording an increasing measure of relief to the Munsifs in the majority of the districts The total number of courts working during the year 1932-33 was 999 against 776 in the year 1930-31 The number of suits instituted in these courts in 1932-33 was 138,392, showing an increase of 24,634 over that of the previous year Of the total number of applications for disposal under the proviso to section 88 of the Village Self-Government Act during the year 1932-33, 62 cases were either dismissed or not prosecuted, the lower courts' orders were confirmed in 186 cases, modified in 28 cases and reversed in 123 cases while 36 cases were remanded for retrial

Relations between District Boards and Union Boards.—The relations between the district boards and the union boards were on the whole satisfactory The financial assistance rendered by the district boards was however, still meagre in some districts (*e g*, Murshidabad, Bankura, Mymensingh, Pabna) The total amount paid by district boards to union boards rose from Rs 4,77,388 in 1930-31 to Rs 5,12,882 in 1931-32, but fell to Rs 4,76,924 during 1932 33 This latter sum included Rs 1,96,444 paid to the boards under section 33 of the Village Self-Government Act for the management of institutions and works transferred to them by district boards The total income received by union boards from pounds which is in effect a transfer of revenue from district boards to union boards fell from Rs 2,07,983 in 1930-31 to Rs 1,95,141 in 1931-32 and again to Rs 1,82,853 at the end of the period under review The proportion between the grants made by the district boards to union boards under section 45 of the Village Self-Government Act and the rates raised by union boards under section 37(*b*) of the Act continued to present the same extremes of variability as noticed in the resolution for 1930-31 At the one extreme the Birbhum District Board made grants of Rs 3,753 only against Rs 49,494 realised from union rates in 1932-33 while at the other the Khulna District Board made grants amounting to Rs 36,630 against Rs 16,863 only raised from union rates Generally speaking the union boards were satisfied with the grants made by district boards, but in certain cases there was a feeling that but for the compulsory provision of section 45 in the Act the district boards would have paid nothing at all

The Minister has noticed with pleasure the encouraging movement initiated in certain districts for popularising the objects of the Village Self Government Act by holding periodical conferences of presidents and members of union boards He was also gratified to note the success of the first general conference of presidents of union boards held under his chairmanship in Calcutta in December 1931, and opened by His Excellency the Governor of Bengal The conference, which was attended by over 100 presidents of union boards, aroused much interest and it is to be hoped that it will develop into a periodical feature of the local self-government system

STATEMENT OF OBJECTS AND REASONS

The Albert Victor Hospital for the treatment of Leprosy at Gobra is a State Hospital managed by a Board of Management under the Chairmanship of the Commissioner of the Presidency Division The history of the Hospital goes back to the beginning of the 19th century, but the institution dates in its present form from the visit of Prince Albert to India in 1889, when a public subscription was raised to commemorate the visit and the funds were applied to establishing the Leper Asylum on a new basis under Government management In pursuance of this decision the premises which had been constructed partly at the cost of Government and partly by public subscription were taken over by Government and the institution has since been maintained as a State Hospital financed from the budget of the Government of Bengal At the same time there are several pre existing Trust Funds which constitute a supplementary endowment for special branches of work

2 There are many disadvantages in maintaining as a State Hospital an institution which makes so direct an appeal to public charity as a hospital for lepers The result is to discourage charity which otherwise may be forthcoming for the improvement of the institution through the difficulty under the accounts rules of enabling the Hospital to benefit from General Endowments At the same time the existence of miscellaneous Trust Funds allocated to special purposes at the Hospital has created difficulties of adjustment with Government expenditure Finally, the Hospital has proved to be a centre for voluntary research work which would more conveniently be carried out at an institution managed by an independent Trust than in a departmental institution of Government The Commissioner of the Presidency Division and the Board of Management have pressed for the institution to be placed on an independent basis

3 For these reasons it is proposed to constitute the Albert Victor Hospital a Trust Fund Institution analogous to the Ranchi European Mental Hospital on a semi independent footing as regards financial and administrative control with a fixed grant from Government corresponding to the total average expenditure of Government on the institution in recent years

4 It is expected that the adoption of this measure will stimulate and attract public charity towards the Hospital and it is hoped that the existing Trust Funds will form the nucleus of expanding endowments In any case, the financial future of the institution on its present basis will be guaranteed by the statutory grant, while it acquires at the same time more independence of status

5 The Bill closely follows the lines of the Ranchi Mental Hospital Act 1922 (XIII of 1922) Under the Bill the Board of Trustees on which Government are adequately represented is vested with the management of the institution and is given specific powers regarding land acquisition, maintenance of establishment etc The income of the Hospital has been specified, viz , a fixed annual grant from Government and the Calcutta Corporation totalling Rs 67 000 together with contributions from municipalities, district boards voluntary contributions from persons or associations, etc The Hospital, as it now stands, has been brought into relation with sections 3 5 and 16 of the Lepers Act 1898 (III of 1898) The present Bill preserves this relationship

BENGAL LEGISLATIVE COUNCIL DEPARTMENT

NOTIFICATION

No 2215L C—14th December, 1934—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 11th December, 1934, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto

THE CALCUTTA IMPROVEMENT (AMENDMENT) BILL, 1934

A BILL

further to amend the Calcutta Improvement Act, 1911

WHEREAS it is expedient further to amend the Calcutta Improvement Act, 1911, in the manner hereinafter appearing, — Ben Act V of 1911

It is hereby enacted as follows —

Short title and commencement

1 (*1*) This Act may be called the Calcutta Improvement (Amendment) Act, 1934

(*2*) It shall come into force on such date as the Local Government may, by notification, appoint

Amendment of section 78 of Bengal Act V of 1911

2 In section 78 of the Calcutta Improvement Act, 1911 (hereinafter referred to as the said Act),—

(*a*) in clause (*ii*) of sub section (*4*), for the words 'at the rate of six *per cent per annum*' the words "at such rate not exceeding six *per cent per annum* as the Local Government may fix by notification" shall be substituted,

(*b*) in sub section (*8*), for the words ' at the rate of six *per cent per annum* " the words at the rate fixed under the provisions of that clause " shall be substituted, and

(*c*) after sub-section (*10*) the following sub-section shall be added, namely —

"(*11*) Notwithstanding anything contained in clause (*ii*) of sub section (*4*) or in sub section (*8*) the rate of interest payable under the provisions of that clause or that sub section, as the case may be, shall be, or continue to be, six *per cent per annum* in cases where the sum, in consideration of which the acquisition of the land has been abandoned, has been fixed under sub-section (*3*) on or after the date of the commencement of the Calcutta Improvement (Amendment) Act, 1923, but before the date of the commencement of the Calcutta Improvement (Amendment) Act, 1934, and the agreement in respect of the payment of the same is executed during the period commencing with the date of the commencement of the Calcutta Improvement (Amendment) Act, 1923, and ending two months after the date of the commencement of the Calcutta Improvement (Amendment) Act, 1934"

Amendment of section 79

3 In section 79 of the said Act, for the words "up to the date of realisation" the words ' due, up to the date of realisation, which shall [illegible] case of betterment fees under section 78B or [illegible] *N B*—Pbe " shall be substituted

STATEMENT OF OBJECTS AND REASONS

Section 78 of the Calcutta Improvement Act, 1911, provides for the abandonment of acquisition of land not required for the execution of an improvement scheme in consideration of a special payment Sub section (4) provides that this special payment may be made in cash or the amount may be left outstanding as a charge on the land, subject to the payment in perpetuity of interest at the rate of 6 *per cent per annum* When the Calcutta Improvement Act was passed in 1911, the rate of interest prescribed was 4 *per cent* As the prevailing rates of interest rose during the war and the years following it the rate of 4 *per cent* was found inadequate, and in 1923, the Act was amended and the rate was raised to 6 *per cent* Government consider that in present conditions this rate is excessive It seems to Government equitable that the interest payable on these payments should approximate to the rate of interest which the Board has to pay for money borrowed to replace locked up capital At the same time it is difficult in present conditions to fix a rate of interest which would continue to be suitable for a number of years The Bill, therefore, amends section 78 so as to provide that Government may, from time to time, fix the rate of interest by notification, subject to a maximum rate of 6 *per cent*

THE CALCUTTA MUNICIPAL (AMENDMENT) BILL, 1934.

A

BILL

further to amend the Calcutta Municipal Act, 1923

WHEREAS it is expedient further to amend the Calcutta Municipal Act, 1923, in the manner hereinafter appearing, (Ben. Act III of 1923.)

It is hereby enacted as follows —

Short title

1 This Act may be called the Calcutta Municipal (Amendment) Act, 1934

Amendment of section 477 of Bengal Act III of 1923

2 After clause (*xiii*) of section 477 of the Calcutta Municipal Act, 1923, the following clause shall be inserted, namely —

"(*xiiia*) assistance to schools in which persons employed on manual labour above the ages specified in section 91 receive primary education and to *tols* and *maktabs*,"

STATEMENT OF OBJECTS AND REASONS

The Calcutta Municipal Act, 1923, does not contain any express provision for the payment of grants by the Corporation of Calcutta to *tols* and *maktabs* or to institutions in which persons employed on manual labour receive primary education The object of this Bill is to remedy this defect, as it is considered desirable that the Corporation should have power to make grants to these institutions

Minute of dissent by Dr N C Sen Gupta, M L.C

I am of opinion that the scope of the Bill is unduly narrow It will be for the Council to consider whether by a supplementary Bill its protection should not be extended to other classes of humble wage earners who are equally subject to besetting either in their places of work or in the offices where they are paid But, as there are difficulties about amending this Bill for the purpose I do not desire that the passing of this Bill should be delayed on that account

Clause 3 —I think that the draft of clause 3 has been misconceived and is based on a confusion between the two different functions of apprehension and conviction for the offence There should be no conviction unless it is proved within the meaning of the word in the Evidence Act that the man was besetting the factory with a view to recover a debt In arriving at his finding on the question the Magistrate will consider the circumstances and upon such consideration may be satisfied that the object of the besetter was to realise his debt, although no direct evidence of that intention is forthcoming On the other hand a man who loiters in such manner as to afford just ground for *suspicion* and no more that he was besetting, can be very properly arrested but he cannot be convicted unless the circumstances show not only grounds for suspicion but the strong probability that he was besetting with that object

I would therefore omit the words " in such manner or in such circumstances as to afford just grounds for suspicion that he is so loitering "

The absurdity of the present draft would be clear on consideration of an extreme case Suppose a Magistrate is satisfied on the evidence that the accused was not besetting with the intention stated but the manner of his loitering nevertheless offered just ground for suspicion that he was In such a case the Magistrate would nevertheless be bound to convict on the section as it stands No doubt it may be presumed that no Magistrate would act so unreasonably But he can refuse to do so only by evading the words of the section It is obvious that the Legislature should attempt to make its laws reasonable instead of trusting to the good sense of the Magistrate to disregard the law in an inconvenient case

Minute of dissent by Mr H S Suhrawardy, M L C

In my opinion the Bill does not go far enough It does not protect certain classes of workmen and labourers who are equally, if not greater victims of the rapacity and oppression of money lenders than those whom the Bill is designed to protect The Bill also is limited to protecting certain classes of workmen at or near the place where they work Obviously the intention of the Royal Commission on Indian labour when it made its recommendations was to protect workmen from extortion by money lenders and creditors *when they receive their wages*, for it is just then that the workman or labourer is subject to the greatest harrassment, as instances we can cite the case of seamen, who receive their wages at the Shipping office, or municipal menial servants, who receive theirs in the Municipal or District offices away from their place of work It was therefore essential that the workman or labourer should be protected from being beset near the place where he receives his wages I would have been glad to introduce this amendment, but I am credibly informed that this may so widen the scope of the Bill as to need fresh circulation and a fresh sanction from the Government of India I, therefore, do not suggest that the present Bill should be amended in the present session, but I am definitely of opinion that after obtaining the sanction of the Government of India an amending Act should be brought in enlarging its scope so as to make it penal for creditors to beset places where a seaman, labourer, workman or a menial servant of a body corporate such as a municipality receives his wages I am happy to say that many members of the Select Committee have expressed the view that they agree with the above opinion

Minute of dissent by Mr K C Roy Chowdhury, M L C

The name and title of the Bill, namely, the Bengal Workmen's Protection Bill, sounds as if some real protection is provided for labour *e g*, protection against disease, accident or exploitation by employers The Bill only aims at punishing money lenders for besetting indebted workmen's place of work—a mild dose of protection indeed I would, therefore, suggest that the name should be "Indebted Workmen's or Labour Protection Act" I am also opposed to the majority decision in clause 4 that offences under the Act shall be "bailable" The fear of a night's detention in police lock up will act as deterrent to many ***Kabulees***, " whose *lathi* is the only court to which they appeal " for realisation of debts

Resolution Reviewing the Reports on the Working of Municipalities in Bengal during 1932-33

GOVERNMENT OF BENGAL

Local Self-Government Department

Local Self-Government (Municipalities)

CALCUTTA THE 11TH DECEMBER 1934

RESOLUTION—No 5711M

Minister-in-charge The Hon ble Sir Bijoy Prasad Singh Roy, Kt

Number of municipalities—The number of municipalities in the Presidency was 117 as in the previous year The boundaries of the Santipur Municipality were changed owing to the shifting of the river Hooghly and the area of the Bogra Municipality was extended in order to include the new Police lines The boundaries of some other municipalities have also undergone slight modifications as a result of the recent survey and settlement operations

The outstanding event of the year was the passing of the new Bengal Municipal Act (Bengal Act XV of 1932) which was brought into operation from December 1932 in all the municipalities except the two hill municipalities of Darjeeling and Kurseong where the old Act continued to be in force

2 **Elections**—During the year under report general elections were held in 54 municipalities In the Presidency Division elections under the new Act were held in 18 municipalities but before it came into force an election under the old Act had already taken place at Budge-Budge In the Burdwan Division there were 13 general elections, of which 12 were under the new Act

The Uttarpara Municipality had to hold two general elections in the course of a few months one under the old and another under the new Act while the Burdwan Municipality, where a general election under the old Act took place in 1931 32 held another election in March 1933, under the new Act In the Rajshahi Division general elections were held at Bogra and Darjeeling under the old Act and in 8 other municipalities under the new Act In the Dacca Division general elections were held in 13 municipalities under the new Act The election at Kurseong was overdue but could not be held owing to uncertainty as to the date of extension of the new Act to the Darjeeling district

In most municipalities elections were keenly contested In the small town of Jamalpur (Mymensingh) 91 per cent of voters of one ward attended the polling station and at Kishorganj the contest was so keen in one ward that out of 110 voters all except 9 turned up to vote In the Darjeeling Municipality the hill men showed their growing class consciousness by putting forward candidates of their own and securing 8 seats out of 18 On the other hand in the Arambagh Vishnupur Sherpur (Bogra) and Old Malda Municipalities there was no contest and no polling There was no poll in the Gouripore and Nalchiti Municipalities in the Dacca Division as the number of candidates did not exceed the number of seats while at Cox's Bazar only one seat out of twelve was contested

3 **Meetings**—Out of 2,809 meetings held during the year, 90 proved abortive for want of quorum and 210 were adjourned against 118 and 249 respectively, in the previous year The number of adjourned meetings in the Burdwan Division was 95 the Hooghly Chinsurah Municipality achieving an unenviable notoriety by adjourning 24 out of its 51 meetings Bansberia and Bally held the highest number of meetings viz 62 each The next highest numbers were contributed by Panihati with 55, Nabadwip with 54 and English Bazar with 47 The percentage of attendance was however very low at English Bazar and at Chandrakona 6 meetings failed for want of a quorum The commissioners of the Mymensingh and Perojpur Municipalities failed to meet once a month

[illegible]tendance of commissioners was qui[illegible]od In 11 [illegible]cipalities the

average attendance was over 80 per cent and in 20 others, over 70 per cent In only 9 was it less than 50 per cent The best record was that of Baranagar, with a percentage of 90 8 At Budge-Budge the percentage was only 43 3, while at Debhatta it fell to 7 5 It must, however be remembered that a high percentage of attendance often connotes the existence of party faction, and is not therefore, in itself an indication of an eagerness for the discharge of civic responsibilities

4 **Ratepayers** —The total number of ratepayers rose from 343,600 to 346,120, the percentage to total population being 15 09 against 14 9 in the previous year The percentage was highest at Sherpur in the district of Bogra (37 5) and lowest at Bhatpara (3 1), a mill town with a a large cooly population Other towns in which rates are paid by less than one-tenth of the population are Mymensingh and the riparian mill municipalities with a floating population of factory operatives who pay no rates themselves In the two hill municipalities of Darjeeling and Kurseong the percentage was 5 3 and 6 6 respectively

5 **Rates and taxes** —The average incidence of taxation for the province as a whole was Rs 2 15 11 The actual incidence ranged from Rs 8 3 9 at Dum Dum and Rs 4 5 7 at Hooghly Chinsurah to Re 0 8-3 at Ramjibanpur and Re 0 7 1 at Baduria Revisions of assessment were made in a number of municipalities At Khardah and Brahmanberia the tax on persons was replaced by a rate on holdings the former having been abolished by the new Municipal Act Bhatpara imposed lighting and water-rate and Kushtia imposed a conservancy rate Baranagar and Naihati increased their revenue by the assessment of new and improved holdings and Tollyganj showed an increase of Rs 3,646 in revenue as a result of revision of assessment General revision resulted in decreased revenue at Ramjibanpur and partial revision produced a slight fall in revenue at Chandrakona Kharar Serajganj and Old Malda Revision in the Dacca and Chittagong Divisions on the other hand resulted in a large increase at Dacca (Rs 5 749) Narayanganj (Rs 15 150) Chittagong (Rs 5 305), Comilla (Rs 3 978) Chandpur (Rs 1 381) an Noakhali (Rs 2 743), the net for the whole Chittagong Divisi ng Rs 20,502 De of reve at

Jamalpur, Mymensingh, Netrokona and Faridpur was due to remissions

6 **Collections.**—The collection for the province as a whole fell from Rs 67 43 lakhs to Rs 66 65 lakhs The percentage of collection on the current demand also fell from 89 5 to 88 8, the lowest ratio being returned by Tollyganj (68 9) This general decrease is ascribed to the prevailing economic depression Six municipalities, viz , Kurseong Muktagacha, Gouripur, Vishnupur, Midnapore and Jangipur, achieved the distinction of collecting the current demand in full, while the Garulia Municipality collected the full current demand without granting remission Bhadreswar and Champdani also collected practically the whole of their demand after granting less than ½ per cent remission, no outstanding balance being left in the former case and only Rs 106 in the latter In these towns, however, the bulk of the taxes is paid by the mills leaving only a small percentage to be collected in the ordinary way

The total remissions, both arrear and current for the province as a whole amounted to Rs 4,64 576 and represented 6 2 per cent of the current demand The percentage of remissions to the current demand varied from 41 2 per cent at Chandrakona 39 per cent at Debhatta and 31 8 per cent at Serajganj to 5 per cent at Bhadreswar and Kurseong The Howrah Hooghly-Chinsurah and Dacca Municipalities remitted as much as Rs 1 61 969, Rs 21 541 and Rs 34,948 respectively and the total remissions in the Rajshahi Division rose from Rs 29 817 to Rs 38 540 In the case of Howrah and Hooghly Chinsurah the abnormally high remissions are generally ascribed to the decision of the Appeal Committees in cases filed against revision of assessment No explanations have been given for the large remissions in other towns These are, however, not far to seek Large remissions are the logical consequence of careless and illegal assessment, inefficient collections and reluctance to enforce the summary procedure provided in the Bengal Municipal Act The following are some of the glaring instances of irregular remissions granted by the municipal commissioners which were noticed by the Examiner of Local Accounts in the Local Audit Report for the year 1932-33 —

(i) At Satkhira taxes were remitted on the ground of poverty, the latrine and

water taxes having been assessed without any reference to the valuation of the holdings

(*ii*) At Nabadwip remission of taxes was granted with retrospective effect in several instances on account of excessive hardship although such remission with retrospective effect is inadmissible

(*iii*) At Barisal the commissioners at a meeting remitted half the excess water consumption fees in respect of all the pending bills, although there is no provision either in the Act or in the rules authorising the commissioners to grant such remissions

(*iv*) At Vishnupur the latrine tax on vacant holdings was in numerous cases fully remitted on the ground that the holdings were vacant or that the occupiers were too poor to pay the tax

The balance outstanding rose from Rs 25¼ lakhs at the commencement of the year to more than Rs 28½ lakhs at its close Of this amount Howrah alone was responsible for more than Rs 9½ lakhs Other municipalities which had unduly large balances outstanding were Dacca (Rs 2 82 670) Mymensingh (Rs 1 01 080) Hooghly Chinsurah (Rs 92 314) Tollygunge (Rs 82 191) Barisal (Rs 65,403) and Comilla (Rs 61 780) Asansol Bally Serampore and Rangpur had outstandings of more than half a lakh of rupees each Three municipalities viz Bhadreswar Garulia and Dhulian on the other hand had no outstanding balance While the general trade depression and economic distress were undoubtedly among the causes of large outstandings the main reason must as heretofore be sought in the natural reluctance of non official executives to jeopardise their chances of office and re election by taking coercive measures and in the inefficient management of the assessment and collection departments Not a few commissioners and other influential and well-to-do persons took advantage of their position to allow their taxes to fall into arrears and in most cases no effective action was taken against them It is a regrettable fact that the financial condition of many municipalities is deteriorating and will continue to do so as long as disinterested and energetic administration is lacking

7 **Income and expenditure** —The total receipts including opening balances fell from Rs 122 4 lakhs to Rs 112 9 lakhs The total disbursement amounted to Rs 99 7 lakhs as against Rs 109 lakhs in the previous year The total balance at the close of the year was Rs 13 2 lakhs as against Rs 13 lakhs Baranagore had a closing balance of Rs 48 674 representing funds accumulated for its water supply scheme while Budge Budge South Dum Dum Titagarh and Nabadwip also had large closing balances in the form of funds set apart for town improvement schemes On the other hand a number of municipalities failed to keep adequate working balances and in several instances these were insufficient to meet outstanding liabilities Debhata closed the year with a balance of Rs 50 only and at Dinajpur Rangpur Bogra Sherpur Pabna and Serajganj the outstanding liabilities largely exceeded the closing balance The worst offenders in this respect were Bhola which had outstanding liabilities amounting to Rs 4,070 against an actual balance of Rs 9 only and Howrah which closed the year with a sum of Rs 61 662 only against liabilities amounting to Rs 2 19 277

8 **Education** —The total amount spent on education rose from Rs 5 03 105 in 1931 32 to Rs 5 24 798 during the year under review This amount included a Government contribution of Rs 1 32 981 Expenditure on primary education totalled Rs 3 55 029 In the Presidency Division expenditure on primary education rose by Rs 2 833 owing to an increase by the Baranagore Tollygunge North Barrackpore and Panihati Municipalities of their expenditure under this head Murshidabad on the other hand spent only Rs 2 on primary education and Dum Dum spent nothing under this head while at Berhampore there was a decrease of Rs 3 862 The Howrah Municipality considerably increased its expenditure by the establishment of a number of free primary schools although a great deal remains to be done in the mill areas of this municipality in the matter of opening night schools for the illiterate labouring classes The Dinajpur Municipality introduced free primary education in primary schools under its direct control with effect from 1st April 1933 primary education was reported to have been seriously neglected at Pabna and Serajganj Dacca spent Rs 24,068 on primary schools but this amount in[illegible] a Government contribution of R[illegible]18 Narayanganj maintained a fre[illegible]blic library[illegible]d five primary

schools The Chittagong Municipality spent Rs 59,132 on education, of which Rs 17,962 was devoted to primary education Three free schools for the boys of the labouring classes fishermen and sweepers were maintained by the municipality and aid was given to a girls' school for *Jaladas* and a night school for Santhals

9 **Water-supply** The total expenditure under this head during the year under review was Rs 11 6 lakhs against Rs 17 34 lakhs in the previous year the decrease being due partly to the fact that several municipalities incurred heavy capital expenditure during the preceding year and partly to the general reluctance to undertake new works owing to the economic depression Notable increase in expenditure however occurred at Barisal (Rs 39 267) Dum Dum (Rs 38 828) and Dacca (Rs 21 349) The Barisal waterworks extension scheme was completed and at Dacca a large number of pending bill were paid off Serampore secured administrative approval to a water supply scheme of its own at an estimated cost of Rs 3 46 000 and Burdwan obtained sanction for a water supply extension and improvement scheme costing Rs 26 974 The scheme proposed by the Hooghly Chinsurah Municipality was under examination by the Public Health Department The Burdwan Division as a whole showed a total decrease in expenditure of Rs 1 68,930 the decrease being especially marked at Asansol Hooghly Chinsurah and Howrah In the Presidency Division Naihati, Nabadwip Khulna and Khardah increased their expenditure, but Satkhira Kamarhati and Gobardanga spent less and expenditure at Tollygunje fell by Rs 3 899 owing to the non-payment of a bill for water supplied by the Calcutta Corporation In the Rajshahi Division the total decrease was Rs 80 969 which is however, mainly ascribed to the large outlay on original work which had been incurred at Darjeeling in the previous year At Rajshahi the waterworks scheme made no advance owing to the failure of the donors to carry out their promises, the principal donor Maharani Hemanta Kumari Debi of Putiya having agreed to pay only Rs 5,000 annually out of a promised contribution of Rs 1 lakh Similarly at Pabna the waterworks scheme remained at a stand still [illegible] Tarash zemindars were unwilling [illegible] pay anything out of [illegible]mised contr[illegible]ion of Rs 50,000, and there was little prospect of progress made with the waterworks scheme for Nawabganj The joint water and electric-supply scheme at Jalpaiguri, on the other hand, made remarkable progress and the waterworks at English Bazar (Malda) were opened in October 1932 There was marked decrease of expenditure at Narayanganj (Rs 74 215) and Faridpur (Rs 16,106) which is accounted for by the heavy expenditure on capital works which had been incurred during the preceding year The waterworks at Barisal Dacca Mymensingh Narayanganj and Patuakhali continued to function during the year with generally satisfactory results At Patuakhali the supply of filtered drinking water is reported to have effected a great diminution in the death rate from cholera Chittagong spent Rs 40,194 on water supply but the supply of water was not very satisfactory as the extension of the watered area without a corresponding strengthening of the pumping house engines resulted in an appreciable decrease in pressure The supply of water at Comilla is also reported to have been unsatisfactory in the western portion of the municipality A waterworks scheme at Chandpur and an improvement scheme at Noakhali were under consideration at the close of the year

Several municipalities showed commendable activity in sinking tubewells In the Burdwan Division most of the municipalities without waterworks sunk tube wells for the supply of good drinking water and there was a demand for more such wells The Rajshahi Municipality also sunk tube-wells in parts of the town where scarcity of drinking water was badly felt At Brahmanbaria an extension of the existing system of supply of drinking water from tube-wells sunk by the municipality was carried out during the year under review

10 **Conservancy and Drainage**—The expenditure on conservancy fell from Rs 23 13 lakhs to Rs 22 64 lakhs, but it was still in excess of the receipts on this account, which totalled Rs 17 74 lakhs The total expenditure on drainage amounted to Rs 7 09 lakhs No new schemes of importance were undertaken in the Burdwan Division, and although several riverside municipalities of the Hooghly District contemplated the construction of sewarage drains economic conditions proved a handicap The

heavy expenditure at Burdwan was due to the overhauling of the night soil vans and road watering carts and to extra road-watering and bustee cleaning by the municipality following upon a smallpox epidemic In the Presidency Division, Bhatpara showed a large decrease (amounting to Rs 1,37,032) in conservancy and drainage expenditure owing, mainly, to the fact that a smaller amount was spent during the year in connection with the town improvement scheme which had almost been completed during the preceding year There was an appreciable increase of expenditure at Naihati owing largely, to the construction of pucca roadside drains and at Baranagar owing to increase in establishment and to repeated repairs to the motor lorries in use in the municipality Kamarhati increased the number of its sweepers and acquired land for a pail depot

The condition of the municipal drains in the Rajshahi Division continued, with a few exceptions to be very unsatisfactory Most of the District Officers stressed the urgency of improvement in this direction and commented upon the faulty planning and construction of drains and on the lack of any system for keeping them clean The insufficiency of trenching grounds and inefficiency of the night-soil service continued to be noticeable The conditions at Natore were particularly unsatisfactory all the low lying parts of the town being choked with water hyacinth At Darjeeling collection of refuse by motor lorries proved successful Mymensingh increased its expenditure on drainage by over Rs 4,000 through the construction of masonry culverts, the repair of old drains and the re excavation of some main outfalls At Dacca six connected public latrines were taken over by the municipality from the University, but in the city proper the substitution of old privies by privies connected with main sewers proceeded slowly on account of the economic depression The drainage system at Comilla was far from satisfactory, and an expert survey is required for the preparation of an improvement scheme Chittagong increased its expenditure on conservancy by improving two night soil depots and one public latrine, by engaging an extra lorry for the removal of refuse, by repairing sweepers' sheds, and by improving the trenching grounds Generally speaking progress was slow, and until financial conditions improve, there is little prospect of a rapid advance

11 **Lighting.**—The expenditure on lighting amounted to Rs 7,03,308 Asansol introduced electric lighting and negotiations for electric lighting were proceeding at Midnapore, Bansberia and Bankura As a result of the trade depression there was a fall in receipts from electric lighting at Howrah Burdwan imposed no lighting rate on the ground that its electrification scheme was not complete Several municipalities in the Presidency Division, namely North Barrackpore, Barrackpore, Khardah, Panihati and Jaynagar, however spent nothing under this head while Nabadwip reduced its expenditure by lighting its streets for only 15 instead of 20 days in each month Darjeeling remodelled a portion of its electric plant at a cost of Rs 80,690, and schemes for further improvement were in hand The execution of the agreement in respect of the electrification scheme for Dinajpur was delayed by the Company concerned and at Pabna no progress could be made owing to the licensee having absconded after becoming bankrupt Work at Serajganj was hampered by friction between the Directors and the Managing Agents of the Company, which was placed in the hands of a Receiver pending liquidation At Dacca expenditure on lighting increased by nearly Rs 24,000 on account of additional lights and the payment of pending bills Chittagong also increased its expenditure and raised the total number of its electric lights to 453 while Comilla completed the electrification of some of its roads

12 **Public health**—Municipal authorities generally showed energy in taking measures for the prevention and control of epidemic diseases Inoculation against cholera and vaccination for smallpox were extensively resorted to, and anti malarial measures were widely adopted in co operation with *Pallimangal Samitis* and other local associations A smallpox epidemic at Burdwan caused a considerable number of deaths, but the municipality took effective measures in conjunction with the district board and by resorting to house to house vaccinations and chlorination of filtered water brought the epidemic under control Prompter action on the part of the municipality immediately after the outbreak of the epidemic might have prevented much loss of life The Bogra Municipa[illegible]perienced considerable difficulty in d[illegible] with a smallpox epidemic whic[illegible]s said to ha[illegible]riginated in

Calcutta and had to take substantial help from the district board An anti-malarial scheme was started at Raniganj with the assistance of the Public Health Department and with the help of a Government grant The Narayanganj Municipality took effective steps to remove water hyacinth from tanks and ditches, and by resorting to vaccination on a large scale was able to reduce the number of deaths from smallpox during the year to 4 only At Dacca there was a very satisfactory increase in the number of revaccinations from 7,719 to 21,620, while primary vaccinations rose from 4,905 to 6 305 Birnagar worked on scientific lines in fighting malaria, although progress was hampered by lack of funds Berhampore opened one leprosy and two kala azar centres, and treated a large number of patients free of charge It also conducted health examination of the children in its free primary schools, and reported the results to parents and guardians with advice to seek medical help where necessary Anti-kala-azar and Anti malaria centres were opened at Chandrakona and anti malaria societies were formed at Chandrakona and Khirpai With a view to safeguarding the inhabitants of Chittagong against rabies, the municipality destroyed 353 suspected and ownerless dogs by the administration of poison

As in the previous year most of the municipalities took steps to improve sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and *dobas* and by removing undergrowth and obnoxious vegetation Seventeen municipalities in the Presidency Division utilised street refuse, road sweepings and rubbish, with very satisfactory results, in filling up ditches and other insanitary excavations, and notices were freely issued on owners to clear jungles and reclaim tanks The Food Adulteration Act appears to have been very unevenly administered In the Burdwan Division it is reported to have become more or less a dead letter in most municipalities The Commissioner of the Presidency Division remarks that only 60 prosecutions had been reported, and that the laboratory at Khulna was not being made use of by the nieghbouring municipalities In the Darjeeling district, in which 50 prosecutions took place during the year, the Act appears to have been vigorously administered, [illegible] the number of prosecutions in the [illegible]ay aining districts of the division was [illegible]y 38, the number being nil in the municipalities of Jalpaiguri and English Bazar (Malda) In Dacca 86 persons were prosecuted and 297 maunds of adulterated foodstuffs were destroyed, while the Chittagong and the Faridpur Municipalities prosecuted 81 and 71 persons, respectively On the other hand, Mymensingh prosecuted only 23 persons, and only 4 sellers of adulterated foodstuffs were prosecuted by the Barisal Municipality Generally speaking, district boards displayed much more zeal than municipalities in this respect and several district boards complained of the failure of urban authorities to co operate in the prevention of adulteration In towns, where retail trade is more extensive, municipal executives are often reluctant to antagonise influential tradesmen by insisting on a high standard of purity in foodstuffs It is to be hoped that all municipalities will, in future in the interest of the health of the community make adequate use of their powers of prosecution under the Food Adulteration Act

13 **Public works** —The total expenditure on public works during the year was Rs 10 40 lakhs against Rs 10 34 lakhs in the previous year In the Burdwan Division there was a decrease of Rs 40173 under this head due, mainly, to the restricted programmes of construction adopted by most of the large municipalities In the Presidency Division there was an increase of Rs 3,222 in expenditure and an increase of 45 1 in the mileage of municipal roads, of which 22 miles belonged to Barasat The Krishnagar Municipality experienced difficulty in maintaining its $29\frac{1}{2}$ miles of metalled roads and a reduction in their mileage was under consideration An increase of Rs 8,130 in expenditure in the Rajshahi Division was mainly due to a large outlay on buildings by the Darjeeling Municipality The Dinajpur Municipality started the experiment of treating its roads with colfix, but the roads of the plains municipalities in this division were reported to be generally in a bad condition In the Dacca Division an increase of Rs 8,616 in expenditure was largely due to the fact that Narayanganj spent Rs 6,745 more than in the previous year by repairing some roads and widening and painting with colfix and bitumuls the municipal portion of the Dacca-Narayanganj road This road being the terminal of a provincial road, Government contributed Rs 25,000 from the

Road Development Account towards its improvement The Chittagong Division was responsible for an increase of Rs 26,402 in expenditure on public works This was largely due to the activities of the Chittagong Municipality, which throughly repaired 5 miles of road at a cost of Rs 30,992 The condition of the roads at Comilla remained unsatisfactory despite expenditure of more than Rs 10,000

14 **Audit of accounts**—The audit of accounts of all the municipalities except Gaibanda, Gouripur, Madaripur and Chandpur was effected during the year by the Examiner of Local Accounts and his staff A serious case of embezzlement in which the sanitary inspector and the municipal accountant were believed to be implicated, was detected at Netrokona and was under investigation Petty frauds of Rs 47 and Rs 330 were discovered at Dainhat and Hooghly Chinsurah, respectively, but in both instances the money was repaid by the delinquents No other important defalcations were brought to light, but on the other hand, many irregularities were detected, some of which were of a serious character Most of these irregularities could have been avoided by methodical office procedure and by proper attention to the Municipal Account Rules Unfortunately in the great majority of cases, municipalities have not shown readiness to follow audit instructions and their replies to audit notes have usually been very belated When these replies are received, they were frequently found to be of an evasive character, with the result that the same errors are found to recur year after year Generally speaking, there was laxity of supervision on the part of municipal executives, and an inclination to place too much reliance upon the office staff in respect of the keeping of accounts

15 **General remarks**—The general financial depression greatly affected municipal administration Unfortunately, however, comparatively few bodies of municipal commissioners did adopt the necessary policy of drastic economy and strict insistence on the punctual collection of revenue, although in every division there were cases in which individual municipalities proved by practical example that with determination and proper control over the staff much could be done to alleviate the situation The Darjeeling, Kurseong and some of the 24-Parganas Municipalities furnished the best record in this connection While the number of municipalities reported to have been mismanaged owing to party faction or the personal incompetence of the chairmen was not large, the Minister regrets to note that instances in which collection were bad, remissions were indiscriminately given, arrears were allowed to accumulate and outstanding debts were left unsettled, were even more numerous in the year of report than in the previous year This was no doubt due in great part, to a reluctance to exercise pressure on ratepayers who were already suffering from the depression but, curiously enough another potent cause of feeble administration was the reconstitution of municipalities during the year of report under the new Municipal Act Owing to the very fact that this Act gave increased powers to municipal bodies the decision to hold new elections under it, as far as possible, simultaneously throughout the province appears to have had results prejudicial to the collection of municipal revenues during the year The feeling that strong steps to enforce collection might lead to their being defeated at the polls deterred the sitting commissioners from adopting a policy of vigorous collection while in towns where elections were postponed, or where owing to legal difficulties the constitution of a new body of commissioners was delayed, it was hardly to be expected that the commissioners, who were shortly to retire, should have exhibited any great enthusiasm or energy in the matter As a result the only sections of the new Act which were used to any great extent were those dealing with elections and the value of the Act in general was not tested during the year under review It had been anticipated, however that there would be difficulties during the transition period and that the advantages of the new Act were not likely to be appreciated until it had been enforced for some time The Minister appeals to all municipalities in the province to make full use of the greatly enhanced opportunities for civic development placed at their disposal by the new Municipal Act

The Government of Bengal (Ministry of Local Self Government) desire to ex[illegible] their appreciation of the public s[illegible] shown by the following chair[illegible] vice chairm[illegible] and municipal

(*Note* —On an average of the five years ending 1932-33, the area under the cotton crops in Bengal has represented some 0 2 per cent of the total area under cotton in India)

There are two crops early and late The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts The "late" crop is grown in Bankura and Midnapore

Character of the season —Since the issue of the Second Forecast in October last, weather continued generally fair except in Tripura State where irregular and heavy showers have caused some damage to the early crop

The prospects of the late variety are fair on the whole

Area sown —The total area sown with early cotton is returned at 72,903 acres and that with late at 1,032 acres as against 74,760 acres and the same estimate, respectively, in the corresponding forecast of last year

Outturn —The outturn of the early crop is estimated at 23,370 bales and the late crop at 291 bales as against 23 499 and 303 bales, respectively, in the corresponding forecast of last year

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 11th December 1934

Final Forecast of the Bhadoi Crops of Bengal, 1934-35.

(*Note* —On an average of the five years ending 1932-33, the area under autumn rice in Bengal has represented some 6 5 per cent of the total area under rice in British India)

Character of the season —As indicated in the preliminary forecast, the crops were affected more or less by drought in some West and North Bengal districts and by flood in parts of East Bengal Since then favourable weather conditions improved the prospects in some districts, but sudden flood in September was responsible for the low outturn in Rajshahi and in parts of West Bengal On the whole a fairly satisfactory crop was reaped for the province

Acreage —The total acreage sown with the different *bhadoi* crops this year is reported to be 6,311,600 acres as against 6,520,600 acres last year Of this, the area under autumn rice is estimated at 5,571,800 acres as against 5,775,300 acres last year

Outturn —According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 73 per cent of the normal this year as against 79 per cent last year The autumn rice is estimated to yield an outturn of 72 per cent of the normal for the province this year as against 85 per cent estimated by this department last year

On the basis of a normal yield of 12½ maunds of clean grain per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 1,842,100 tons this year as against 2 254,100 tons last year

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 13th December 1934

First Forecast of the Spring Oilseed Crops of Bengal, 1934-35.

(*Note*—On an average of the five years ending 1932-33, the area under linseed in Bengal has represented some 3 6 per cent and that under rape and mustard 10 9 per cent of the total area under these crops in British India)

Explanatory—Three forecasts are issued for the spring oilseed crops The present one deals with the area sown and the conditions of the crops

Area sown—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions In the other two divisions, the area under cultivation is small The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 886 400 acres this year as against 867,500 and 860,800 acres, respectively, in the corresponding and final forecasts of last year

Character of the season—At the outset weather was wet for the preparatory tillage of the crops From the middle of October dry weather prevailed facilitating field operations and helping germination generally The present outlook is reported to be promising

Director of Agriculture, Bengal (offg)

Dacca, the 17th December 1934

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 12th December 1934

Second Forecast of the Winter Rice Crop of Bengal, 1934-35

(*Note*—On an average of the five years ending 1932-33, the area under winter rice in Bengal has represented some 17·9 per cent of the total area under rice in British India.)

Character of the season—As reported in the first forecast, the weather was not favourable both for transplantation and early period of growth owing to drought in parts of West and North Bengal and to sudden rise of rivers in some important districts of East Bengal. Subsequently sudden floods in September also affected the crops in places in Nadia, Murshidabad, Jessore and Rajshahi. Good rainfall in October materially helped the growth and final development of the transplanted winter paddy.

Acreage—According to the figures returned by the District Officers the total area under winter rice is 14,759,600 acres as compared with 15,535,600 and 15,498,700 acres in the corresponding and final forecasts of last year. The increase in area as compared with that of the first forecast is due to further transplantation.

Outturn—From the summary of the district returns appended, it will be seen that three districts report a normal crop, 16 districts a crop varying from 70 to 96 per cent and the rest below 70 per cent of the normal. According to the above estimates, the provincial outturn works out to 81 per cent of the normal as against 86 and the same estimate in the corresponding and final forecasts of last year.

Accepting 81 per cent as the provincial outturn the gross yield of the crop on the basis of a normal yield of 13½ maunds of clean grain per acre is estimated at 5,928,800 tons this year as against 6,625,800 and 6,225,700 tons respectively in the corresponding and final forecasts of last year.

K. McLean,

Director of Agriculture, Bengal (offg.)
